

ASSORTMENT 2016

HELLO.

Dear Customer,

2016 is going to be a great year, as far as Brabantia is concerned. Our Designed for Living-vision is radiating from all of our many new product concepts, as is our focus on bringing smart and stylish design to kitchen and homeware. Making homes and lives more comfortable, and beautiful. And making business better for you.

As a family business, we care about the products we make and the impact they have on people and the planet. We want to make the world more beautiful today, and for generations to come. That's why we design recyclability into all our products and produce sustainably. We are going for 100% recycling within the next decade.

And we're off to a good start, with the new Sort & Go waste bins. The perfect tool for separating waste in the home. We're also adding a pinch of extra flavour to our Tasty Colours collection, with handy new Kitchen tongs, Chopsticks, and Mixing bowls, a Colander, Measuring jug/juicer, and some great Graters. The new stackable Tea box and Storage jar are a welcome addition to any tea table.

This year we're putting more effort than ever in brightening laundry days worldwide. Amongst our newest laundry tools, are an ironing blanket, protective clothes covers, and some handy hangers. We present stackable laundry boxes in four colours to design an own sorting system. Several new ironing boards and eye-catching covers with a Botanical, Raspberry, or a contemporary Barley print made for smooth ironing and ditto sales. The new nature covers will make ironing a relaxing experience.

We've tried to do even better than before, and in my opinion we've succeeded. To further support sales, we have developed a broad collection of point of sale material, consumer advertising, service and web support for you to choose from. If there is anything else you need, please contact me or the members of my team.

Yours sincerely,

Jos van Baal, Sales Director Export Markets
